TESTIMONY OF GRON

Before House Committee Investigating the Christmas Scandal.

PART PLAYED BY AN OHIO MEMBER

Secret Report of the Danish Agent Was First Submitted to Congressman Grosvenor—Object of Present Agitation.

Washington, April 1.—The investigation of charges made in connection with the Danish West Indies purchase was begun before the special committee appointed by Speaker Henderson. Besides the members of the committee, there was present Niels Gron, who brought the charges to the attention of Representative Richardson, and quite a number of interested spectators.

Mr. Gron was the first witness sworn by Chairman Dalzell. The witness spoke in good English with a slight Danish accent. He said that in February last parties in Copenhagen who opposed the transfer of the Danish West Indies to the United States conferred with him and brought to his attention the Christmas report.

Chairman Dalzell asked who these parties were. The witness said they were members of the Danish house, but he did not think it proper to give their names. Mr. Gron said he was at present the representative in this country of these parties.

Mr. Gron gave way temporarily to Representative Alexander of Buffalo, who desired to make a complete disclaimer of any knowledge of Christmas or the Danish transaction. Mr. Alexander said he had never spoken to any one in or out of congress as to the Danish treaty, and never heard it discussed at any time or place by any one until after the recent presentation to the house.

Continuing his statement, Mr. Gron explained how the Danish parties opposing a sale of the islands had persuaded him to come to Washington and place the Christmas report before congress and the public so that the facts would be known. He told of having secured a note of introduction to General Grosvenor of Ohio, arranging to meet the latter in Washington, his purpose being, he said, to carry out assurances given with Copenhagen that he would place the matter before influential men and thus bring it to the attention of congress and the public. Mr. Gron told of bringing the papers before Congressman Grosvenor, who at first seemed quite indignant. Mr. Gron said he spoke of laying the matter before the proper parties in order that suitable action might be taken. The witness said that later General Grosvenor concluded that it would be proper to lay the matter before the secretary of state. This was done and Mr. Gron said that the state department held that it could take no action and that the authorities here had in no way committed themselves to Christmas.

Gron said that after Grosvenor had decided not to proceed with the matter he (Gron) had prepared a statement for the press and had asked Mr. Crane, a newspaper man to send some one from the press association for the statement and also to General Grosvenor for assurance as to Gron's standing. He learned later through Mr. Crane that General Grosvenor said he knew nothing about it. He said he was informed the day after he submitted the statement that the press could not use it. Afterward, he said, he submitted his statement to several newspapers and more of less of it was printed. The witness then detailed how he had placed the matter before Representatives Richardson and Underwood.

"What was your purpose in bringing it before members?" asked Mr. Dalzell.

"To get it into the house and before the American people," answered the witness.

In response to inquiries the witness took up various branches of the case. He said he represented those constituting the "No-Sale party" in Denmark.

As to the Christmas interviews in which Christmas was made to say that he had negotiations with Abner McKinley, which Christmas in his report declared had been instigated by Gron, the witness said that he had no connection with them.

New York, April 1.—An offer of \$5,000,000 has been made by a European syndicate for the site of St. Paul's church, parish house and cemetery at Broadway and Fulton streets. The Trinity corporation refused the offer and it was declared by the controller that no offer for the famous property will be considered, much less accepted. It was the intention of the bidders to erect a "skyscraper" on the site.

Chicago, April 1.—A 4-story building at Austin avenue and Lincoln street, occupied by manufacturers, was destroyed by fire. The loss is placed at \$150,000, partly insured.

COLLEGE ATHLETES

On Duty at the Polls in Tenderloin Districts of Chicago.

Chicago, April 1.—Among the "watchers" at the polls in the First ward, which includes the tenderloin district, were 10 or more college athletes chosen by the Municipal Voters' league to head off any attempts at illegal election tactics. Among those who reported were: John E. Webb, a former University of Chicago tackle; Right Guard Gibbons Flannigan, another Maroon. "Jimmy" Sheldon, O. E. Atwood, Marcus Hedell, T. E. Perkins, Fred Speik and Kellogg Speed, all football players and others from the Midway institution. Among the "watchers" chosen from Northwestern university are the Deitz brothers, each weighing over 200 pounds. The company of college "watchers" slept down town and were at the polls early.

The "off year" aldermanic election is being held here. The polls closed at 4 p. m. The early vote was light, as has been expected. The hottest fight has been waged in the First ward, where Alderman Coughlin (Rep.), better known as "Bath House John," is running for re-election against Davis L. Frank, who has the support of the reform organizations.

The Frank forces have made many charges of illegal registration against the Coughlin camp and on some of them the grand jury has acted.

A feature of the day in the First ward was the absence of the regular patricians on their accustomed beats. A complaint was made to the mayor that the regular policemen were working for Coughlin. The mayor issued an order transferring the policemen from the outside districts who could have no affiliations with either camp.

Details of Explosion.

Dayton, Tenn., April 1.—The details of the explosion in the Nelson mine of the Dayton Coal and Iron company show that 15 were killed and many were injured. The work of removing the fallen slate covering the victims is being conducted rapidly. The funerals of the victims will be conducted at once. Most of the families of the dead miners are in destitute circumstances. The explosion, which was one of the worst that has occurred in the Dayton mines, came close upon the announcement, after an inspection, that the mine was perfectly safe. The Nelson shaft, however, has been the most dangerous of the mines at Dayton, on account of the presence of mine gas, ever since the explosion of Dec. 20, 1895, when 28 men were killed. Since then the miners have been supplied with safety lamps and fire bosses have been employed to fire the shoots of the miners after the miners had finished their day's work.

Pleasure Seekers Killed.

St. Marys, Kan., April 1.—Three persons were instantly killed and another perhaps fatally injured at a railroad crossing two miles west of Rossville, by a Union Pacific passenger train. The killed: Fred Smith, Edward Smith, Miss Minnie Mainey. Mrs. Fred Smith may recover, although she is still unconscious. Mrs. Smith was the bride of less than a week, having been married on Sunday, and Miss Minnie Mainey was to have been married next Sunday to Edward Smith. The young people had been to St. Marys to attend Woodman dance and were returning home when the accident occurred.

Outside Help Needed.

Chattanooga, Tenn., April 1.—The flood damage in Shelbyville and Bedford counties is estimated at nearly \$2,000,000. Relief committees are doing everything possible, but there is great suffering and assistance will have to be secured from the outside. Hundreds of families are homeless, it being impossible, even at this time to get the correct number. Many houses went down in the current. The only deaths reported are three negro children. Only one bridge across Duck river remains standing in the county, all the steel bridges recently erected at a cost of \$50,000 being washed away.

Anthracite Coal Reduced.

Philadelphia, April 1.—Announcement was made by the officials of the Philadelphia and Reading railway that anthracite coal prices have been reduced 50 cents a ton. This reduction will be in force during April only. On May 1 10 cents will be added and equal increases will be made on the first days of June, July, August and September, after which date the old price schedule will again be in force.

Retail dealers will announce the reduction in price in a few days. The reduction is ordered by the Anthracite association. Similar action was taken April 1, 1901.

Chicago, April 1.—A 4-story building at Austin avenue and Lincoln street, occupied by manufacturers, was destroyed by fire. The loss is placed at \$150,000, partly insured.

SEIBER'S SUBSTITUTE

For Dealing With Canal Property In Ohio Passes the House.

SUBSIDY PROPOSITION RETAINED.

Term of State Dairy and Food Commissioner Blackburn Is Lengthened by Legislative Enactment.

Columbus, O., April 1.—The canal problem is at last solved so far as the house of representatives is concerned. The Painer bill sleeps peacefully in the quiet of the committee on public works and the Seiber substitute is half a law. Dr. Cain lead the opposition to the bill, its friends relied upon the votes which they knew they could count and simply permitted the "other fellows" to do the talking. Different amendments were proposed, but none except those recommended by Mr. Williams, who reported the bill for the committee, were allowed to go through.

One of the most bitterly contested sections of the new law was the canal boat subsidy proposition which proposes that if in the future it should at any time become the policy of the state to abandon the canals, all boats made valueless thereby, are to be paid for at their value in money by the state. Mr. Cain proposed to amend the bill by striking out all of this section and then came the debate. The Cain amendment was defeated and the bill passed by a vote of 64 yeas to 22 nays.

The bill retains the Miami and Erie canal and the northern division of the Ohio canal. It provides for the appointment of a commission by the governor, which will investigate the remaining canal property and report to the governor as to whether or not it can be placed upon a profit paying basis.

Mr. Comings introduced a bill which he said had the endorsement of the governor, to place all work on the canals in the hands of the board of public works. All bills are to be approved by the engineer for the board and paid through the superintendents. This plan will very materially reduce the army of canal employees and will also reduce the expense of operating the canals.

Another big batch of bills was turned loose in the house. One measure was introduced to amend the law relating to deaf and dumb school youth, so that \$150 for each child may be paid out of the state fund to city districts. Another bill on the same subject seeks to reimburse Cleveland \$63,000 and Cincinnati \$42,000 which these cities failed to receive through the unconstitutionality of a former law.

Mining legislation is proposed in two bills, as follows: To revise the mining laws of the state, providing for better ventilation of mines and making other amendments for the better protection of miners. To require that all blasting in mines shall be done after working hours in the mines.

Other measures introduced were: To appropriate \$7,000 for the Ohio naval reserves for two years; to amend the state fire marshal law (same bill as introduced in the senate last week); to authorize the payment of fees for public officials guaranteed by fidelity companies out of the public funds; to provide that a will discovered after another has been probated may take the place of the first in probate court without a contest in common pleas court; to prevent more than 8 per cent being charged on salary loans; to protect minority stockholders in incorporations by providing that directors may be removed by a court when it is known that funds are being misappropriated, and providing that misappropriations may be stopped by injunction; to amend the street railway franchise ordinance in Columbus so that not more than 3-cent fares may be charged; to make the state liable when a person is killed by an officer exceeding his authority; another makes the state liable in damages for imprisonment by an officer who has exceeded his authority.

In the Senate.

The senate passed Mr. Connell's bill making the office of state dairy and food commissioner a three year office, and extending the term of Commissioner Blackburn for the period of 11 months. It provides that the commissioner shall take his office in January instead of February, and in order to provide for this change, Mr. Blackburn's term is extended.

Other bills were passed as follows: S. B. abolishing the present police board for Cleveland and providing for a bipartisan board of four members by governor; purpose of bill is to reorganize police force and give Republicans control over it; H. B. to prevent fraud in the purchase, disposition or sale of stocks of goods in bulk until

after five days' notice or intention to sell is given to creditors; S. B. authorizing an appropriation of \$500 for purchase of 75 sets to be placed in state house yard; H. B. making employers liable in damages to employees where they are injured or killed by reason of defective machinery, where such defects had been overlooked by inspector.

Among the bills introduced in the senate were the following: To authorize appointment of live stock inspector; to give administrators and executives the right to sue municipalities for damages where persons confined in prisons or charitable institutions have been killed; to reduce fee for examination of doctors by state board from \$25 to \$5.

TERRIBLE TRAGEDY.

Colored Servant Shoots Mrs. Furbush and Children.

Philadelphia, April 1.—William Lane, aged 35, a colored servant employed by Charles F. Furbush at 652 North Fifteenth street, shot and killed Mrs. Ellen Furbush, aged 42 years and her daughter, Madeline H. Furbush, aged 10 years, and probably fatally wounded Eloise Furbush, aged 7 years, another daughter. The latter is not expected to live. Lane made his escape. He had been suspected of stealing money from his employer and a warrant was sworn out for his arrest by Mrs. Furbush. Lane learned this and committed the crime in revenge. Mrs. Furbush and Eloise were on the third floor of the house and Madeline was on roller skates in front of the house. After killing the mother and fatally injuring one child Lane called Madeline into the house and she followed him up the stairs to the third floor where he shot her in the head. He then ran down stairs and made his escape.

The bodies of Mrs. Furbush and Madeline and the injured child Eloise were found by a policeman who had gone to the house to serve the warrant on Lane. There was a colored servant in the kitchen ironing when the murders were committed and when the policeman questioned her she said she had not heard the shooting and did not notice the departure of Lane from the house. The coroner took charge of the house. Mr. Furbush has not yet been located by the police and it is stated that he has gone to New York. Lane has been employed by the family for about two years. His home is said to be in Trenton, N. J.

Lane, the murderer, was captured in Camden, N. J., as he was leaving a ferryboat on which he had escaped from Philadelphia. He was immediately brought back to this city and locked up in a cell in the city hall.

AUTHOR OF BEN BOLT

Passes Away at His Home In Newark, New Jersey.

Newark, N. J., April 1.—Dr. Thomas Dunn English is dead.

Dr. English, who was a writer of some note, was widely known as the author of "Ben Bolt." He was born in Philadelphia in 1819 and was graduated from the University of Pennsylvania in 1839. Later he studied law and was admitted to the Philadelphia bar. He engaged in journalism in New York from 1844 to 1859 when he came to Newark to practice medicine. He was a member of the New Jersey legislature in 1863-64. He served two terms in congress from a New Jersey district.

Leave Extended.

Columbus, O., April 1.—The supreme court has affirmed the judgment of the lower courts sustaining the provision made by vote of the electors of Cincinnati for the extension for 65 years of the lease of the Cincinnati Southern railroad and for the issue of bonds for additional terminal facilities. This establishes beyond recall the future of Cincinnati's road extending from Cincinnati to Chattanooga and provides material betterments for its operation at Cincinnati.

Adulterated Milk Dealers Fined.

New York, April 1.—In its campaign for pure food the board of health has had a field day in the court of special sessions. Members of the board brought out the fact that the produce dealers on the east side are violating many laws of health and that the chief offenders are those who sell polluted milk. Seventeen offenders were brought before the bar on this charge and fined from \$15 to \$50. "Embalmed milk" is sold.

Fun For Prisoner.

New York, April 1.—In the comedy of "Who's Sheriff?" now going on in Brooklyn, a prisoner is reported to have escaped from the custody of Sheriff Guden, because John Wilson, a jailer, insisted that Colonel Dike was the real sheriff and that Guden had no legal right to the custody of a prisoner. The latter was arrested on a charge of contempt of court upon an order issued by Judge Maddox of the supreme court.

SOLDIERS ARE KILLED

In Railroad Accident in the Transvaal According to London Advices.

STEYN AND DELAREY ARE LOCATED.

Peace Meeting of the Boer Statesmen and Generals Is Expected. Meantime Military Operations Continue.

Pretoria, April 1.—Thirty-nine British soldiers were killed and 45 injured in a railroad wreck March 30, near Barberton Transvaal colony.

Version of War Office.

London, April 1.—The war office in reporting the railroad wreck at Barberton, Transvaal colony, says it was accidental. The victims nearly all belonged to the Hampshire regiment.

Peace Meeting of Boers.

Pretoria, April 1.—President Steyn and General Delarey have been located and a meeting between them and Acting President Schalk-Burg is expected to be arranged without further delay. It is reported that General Botha will also attend the conference.

Commandant Mears has sent in word that his command will abide by the decision of the Boer government.

Commandant De Villiers, who has been operating in the Kimberley district has sent in a flag of truce, asking for terms.

The peace movement, however, has in no way interfered with the military operations. The British are again sweeping the northwest districts of the Orange River colony where, it is believed they have about 1,000 of General De Wet's men in the cordon.

To Discuss a Surrender.

Heidelberg, Transvaal, April 1.—Commandant Alberts has called a meeting of the Boers in his district to take place 35 miles east of the Springs station in order to discuss the proposal for a general surrender. A party of constabulary and native scouts was ambushed near here March 30. Six of the party were killed. The Boers eluded pursuit. Surrenders are occurring daily in the Standerton district.

New Trial Denied.

St. Louis, April 1.—Councilman Meysenberg, convicted of bribery and sentenced to three years in the penitentiary was denied a new trial and his motion for an arrest of judgment was overruled by Judge Douglass. Defendant filed notices of appeal to the supreme court. Circuit Attorney Folk demanded the increase of Meysenberg's bond to \$30,000, but the court fixed the amount at \$25,000. Judge Douglass then called the case of John K. Murrell, member of the house of delegates, who was indicted for bribery in connection with the suburban railway bill. Murrell forfeited his bond of \$5,000 on March 17, when the case was called for trial and his present whereabouts is unknown to the authorities. As Murrell did not answer the case was laid over until the next term of court.

Negro Killed.

Evanston, Ind., April 1.—Proctor Wright, a prominent citizen of Rockport, Ind., shot and instantly killed Jesse Miles, a negro stevedore employed on the steamer Thomas, plying between this city and Rockport. Miles had been drinking all night and when he met Mr. Wright made an assault on him. Miles married a sister of one of the negroes lynched at Rockport some months ago for murder. He told his friends he believed Mr. Wright was the leader of the mob and he intended to kill him. Mr. Wright will be exonerated on a plea of self-defense.

A Serious Break.

Chattanooga, Tenn., April 1.—United States Engineer Knight, in charge of the work of the government on the Tennessee river returned from Florence, Ala., where he had been called to examine the break in the canal between Florence and Decatur. He stated that the break is serious and that the damage to the canal is so great that navigation will be stopped at that point for two or three months.

Revolution in San Domingo.

Washington, April 1.—The state department has been advised by cable of the revolutionary movement in Santo Domingo, has requested the navy department to send a warship there, and the Machias, now at San Juan, Porto Rico, will probably start across at once. The trouble is not believed to be serious, but it is deemed well to have a ship there as a matter of precaution.

London, April 1.—Sir Henry Irving, Ellen Terry and their party, who were passengers on the Atlantic transport line steamer Minneapolis from New York, March 22, which reached her dock here, were welcomed on their arrival by many theatrical friends.

"WHEN dead men vote at the primaries," says the Detroit Free Press, "they tell no tales." "But they speak in the returns with most miraculous organ. The cemetery vote in Philadelphia is one of the mainstays of Republican domination," says the Philadelphia Record.

THE Frankfort Journal pays this compliment to Bracken's Representative: "The Hon. S. D. Rigdon, of Bracken County, who was one of the leaders on the Democratic side in the House, has announced as a candidate for reelection and will make the race for Speaker. Mr. Rigdon was the author of the bill prohibiting the use of histories in the schools of this State which do not give full credit to Admiral Winfield Scott Schley, and other important measures. He was an able, fearless, conscientious and working member, and as he is the only prospective candidate for Speaker from the Eastern end of the State, his friends are confident he will prove a potent factor in the contest."

HALF THE WORLD

To be Flooded on April 6th, Says an English Astronomer.

[Rockland (Mass.) Cor. New York Sun]
Dr. G. H. Bean, an English astronomer who is visiting friends here, makes the prediction that on April 6th half of the world will be flooded. He says that Venus, Mercury, Mars, Jupiter, Saturn, Uranus, the sun and moon will all be on one side of the world, and a submergence of Western Europe, Western Asia and the southeastern part of the United States, including Texas, will begin, and will be completed in thirteen days, when the moon will arrive again on the equator, or on April 18th.

Dr. Bean says that a line drawn from El Paso, Texas, to the southwest corner of Connecticut, thence along New England, across the Atlantic ocean and the Island of Great Britain, near the southern boundary of the county of Ross, to the Continent of Europe, and, taking in Western Europe and Western Asia, returning by the Mediterranean sea, the Atlantic ocean and the Gulf of Mexico to the place of beginning, will indicate the part that will be flooded.

DAUGHTERS OF KENTUCKY

Assured of an Enthusiastic Reception at St. Louis Exposition if They Save the Day.

[St. Louis Globe Democrat]
It is all settled at last, and everybody may take a deep breath of relief and permit an expansive and gratified smile to spread across his physiognomy. The girls of Kentucky have determined to raise the fund for the exhibit of that State at the fair. The fund is as good as raised before they start in; all the Kentucky girls need do is to ask and it shall be given. She is as invincible at home as she is away from it. A dollar is to be asked from each man in the State to be applied to the fund, and a pretty girl is to entreat the gift. The traditional gallantry of the Kentucky men makes the result foregone conclusion. There will be a flood of dollars flowing into the treasury of the association, and it is not too much to anticipate that three times as large a sum will be raised as the Legislature could ever have been expected to appropriate.

Kentucky is a State in which the activity of women in political and equal suffrage fields is not regarded with the approbation that it is in some others, but when they undertake, as a matter of sentiment, a project which the men with their unwieldy political machinery can't accomplish, Kentucky rallies around their banners. And when the Kentucky building is finished and is stored full of the relics of Daniel Boone and the early pioneers and old and curious objects from the Blue Grass State, together with the products of her industry, we shall look for the Kentucky girls who are responsible for the State's representation. Let them come in phalanxes and platoons and regiments and armies, with their big brothers, and make a "Kentucky day" that will be second only to "Missouri day"; and the bands will play "My Old Kentucky Home" and "She Was Bred in Old Kentucky" from sunrise until midnight.

D. HUNT & SON

NOT ELIGIBLE.

Hon. John G. Carlisle Says Governor Beckham Can Not Succeed Himself.

FRANKFORT, Ky., March 31.—The question as to Governor Beckham's eligibility to succeed himself as Governor is to be reopened, according to a statement of a gentleman who has just returned from Washington. Some months ago, when some of Governor Beckham's friends looked up the question, ex-Chief Justice Pryor and other good lawyers expressed the opinion that, as Beckham was only serving out Goebel's unexpired term, he was undoubtedly eligible for the succeeding full four years' term.

The public accepted the opinion as being correct, and all calculations for the next State convention have been made with Beckham as an eligible candidate for Governor.

It seems, however, that those who oppose Beckham for the Governorship have been investigating the eligibility feature on their own hook, and have consulted several eminent law specialists, one of whom is John G. Carlisle, now of New York. He, it is said, has given a written opinion on the subject, which cites various sections of the Constitution and decisions of the high courts, and concludes by saying that in his opinion Beckham is not eligible to succeed himself.

This opinion is said to be in the possession of a well known politician, and will be made public at such time as he thinks proper, along with opinions of others who take the same view.

Just how the question can be finally determined cannot be even guessed at, for it will have to be passed on by the Court of Appeals before it becomes a finality, and how the test suit will be brought is a knotty question, but it is asserted that final decision will be brought about in some way.

The news will certainly cause a stir among the politicians, because the question had been looked upon as settled. A lively controversy is looked for, and the final decision may be delayed until next year, when it is believed the Court of Appeals will contain a majority of Democrats.

You Reap What You Sow....

**

That's why you should be sure what you are sowing. You can't be sure when the seed comes from a house that does not raise its seed, but buys it, after being gathered, wherever they can pick it up. Our seed comes from houses that raise all their seed on their own farms and in a way to produce the best of each kind. This kind of seed you can sow with certainty and reap with satisfaction. And then it costs no more than the uncertain kind.

An Additional Misfortune Befalls the Family of Ira N. Beam at Portsmouth.

The BULLETIN a few days ago made mention of the misfortunes that had befallen the family of Ira N. Beam since they moved from Maysville to Portsmouth. The Portsmouth Blade adds this account of an additional misfortune:

"The family of Ira N. Beam, of Offa street, who was bereft of his three children by a complication of measles and bronchitis during the past two months, seems to be ill fated. Sunday during the storm a large maple tree standing directly in front of their residence was broken in two, the falling tree alighting on their house. The family fled from the house as the front portion was wrecked. The tree is an exceedingly large one and a number of men were compelled to saw up the tree in order to get it out of the yard. The family had a close call for their lives."

FORTUNES IN OIL!

Kentucky just now is attracting prospectors from all over the land. The wells already sunk prove it a very rich oil producer. MONEY INVESTED NOW MAY DOUBLE OR QUADRUPLE IN LESS THAN A MONTH.

Our holdings consist of about 5,000 acres in Wayne County, near the great Sunnybrook field, about 6,000 acres in Lincoln County, and 600 acres in Licking Valley in Bath County, close up to Ragland. Our first two wells near Ragland are producers. We have started to drill in all three counties, and expect to strike oil in every well. We are still acquiring valuable lands in addition to those already secured, and lying in close proximity to the greatest developments in the State.

A limited amount of the treasury stock will be sold, at \$5 per share, par value in thirty days.

MILLINERY OPENING!

NO ADVANCE EXHIBIT; ALL INVITED---FIRST SHOWING OF SPRING MILLINERY---NO SPECIAL INVITATION OR PRIVATE EXHIBIT.

This is our only invitation, and it's addressed to you. We believe this 1902 collection to be the choicest ever gathered at Maysville. But we're prejudiced; perhaps it's not. Better leave that to your judgment. This, however, may be confidently claimed—that it reflects the latest London and Parisian fashions as a polished prism reflects light. It holds up the mirror to the mode. Bigger stocks may be seen in some of the larger cities, but none choicer; and what's more, NO FANCY PRICES.

VALUABLE FIND.

Mr. James Maley, While Plowing, Unearths a Large Stone Pipe of Peculiar Shape.

While plowing on the McKibben farm near Lewisburg a few days ago, Mr. James Maley unearthed a valuable relic of the past in the shape of large stone pipe, rather oddly formed and highly polished.

It is made of some dark colored stone, and although it has no doubt remained in the earth for centuries it still retains a very high polish.

The pipe and stem are both in one piece, the bowl being about four inches in length and the stem six and three quarter inches long. The stem is fully an inch wide where it leaves the bowl, gradually tapering to the end. Instead of being round, the stem is nearly flat, but having a raised center extending the full length.

Colonel Bierbower gave it as his opinion that the pipe belonged in the distant past to a member of that mystic race of people known as the moundbuilders.

It required a skilled workman to complete such an article, and it must have been a long and very tedious job for the most skilled artisan.

One gentleman offered Mr. Maley \$15 for the relic Tuesday but it will take more than that to induce him to part with it.

RECEIVER ASKED FOR.

J. W. Morford, of Lexington, Files Suit to Close Up the Business of Safety Investment Company.

J. W. Morford, of Lexington, through his attorneys, H. E. Ross, of that city, and C. L. Sallee, of this city, filed suit Tuesday in the Circuit Court against the Safety Investment Company, asking that a receiver be appointed to take charge of the books &c. of said company and wind up its business.

Morford became interested in said company by purchasing of E. A. Montgomery, representing the "Lebanon syndicate," a number of the bonds or contracts, and alleges he has paid into said company \$760 under said contracts. He alleges among other things that none of the capital stock of said company was ever paid; that the contracts or business of said company are illegal and against public policy; that the parties managing the company as now constituted are attempting to transfer its business, contracts, &c., to the Germania Guaranty Company of Covington.

The court is asked to appoint a receiver to take charge of the affairs of the company, wind up its business and distribute the assets. The petition also asks that the Germania Guaranty Company be compelled to refund any of the defendants' assets that may have been turned over to it, and if the officers of the Safety have transferred any of the company's assets to the Covington company the petition prays that they be compelled to refund whatever they may have so transferred.

A Superb Organization, The Boston Lyric Opera Company.

The Lexington Leader, April 1st, says: "Last night the Boston Lyric Opera Company sang 'Il Trovatore' in a faultless manner. It has been years since this pretty opera has been heard here to such a good advantage. The quality and volume of the notes of the individual voices, and the intelligence of the singing was all that could be desired. As for the chorus, its equal has not been heard here. It is needless to dwell on the opera itself, 'Il Trovatore' must be sung splendidly to be appreciated, and it was appreciated Monday night."

This excellent company will be at Washington Opera House, Friday and Saturday, April 4th and 5th, with matinee Saturday. Seats now on sale at Nelson's.

FISCAL COURT.

Business Transacted at the Opening Session of April Term.

Reports of Officials as To County Finances. Turnpike Superintendents' Reports—Other Matters.

The April term of the Mason Fiscal Court convened Tuesday, Judge Newell presiding.

The County Treasurer produced his report for the various county funds. Twenty-eight M. and B. S. R. R. bonds numbered from 18 to 25 and from 30 to 49, inclusive and 158 interest coupons, paid off, were presented and burned in presence of the court. All the outstanding coupons on free pike bonds, except two due March 1st, were also reported paid and were burned in presence of court.

County Clerk C. L. Wood presented his report of settlement with the Sheriff for county levy of 1901. Following is a recapitulation of the taxes collected:

School fund	\$16,124.41
M. and B. S. railroad fund	8,215.41
Free turnpike fund	26,873.02
Infirmiry fund	3,439.53
General claim fund	15,771.16
White and colored tithes	2,697.00
Total	\$73,120.53
Less Sheriff's commissions	3,332.65
Net taxes paid	\$69,787.88

Wm. Luttrell, Superintendent of free pikes for the eastern division of the county, presented his annual report showing amount expended by him on the various roads of his division the past year. The total was \$11,501.96.

Wm. P. Smoot, Superintendent of the western division of free pikes, presented his annual report, showing amount expended on each of the roads in his division. The total was \$11,650.43.

County Attorney O'Donnell presented a receipt from the County Treasurer showing payment of \$10.80 interest on the Weaver notes.

Judge Newell presented report and receipt showing that in pursuance to an order of court he had conveyed an old quarry on the Charles Bland farm to J. L. and C. M. Bland for \$25, and paid same into county treasury.

The annual report of Dr. Browning, Jail Physician, was presented and filed. The prisoners had been exempt from any of the contagious diseases prevalent in the county the past year, and there had been no case of protracted sickness—"an evidence of the sanitary surroundings and the intelligent and humane care of the officials in charge at the jail." Dr. Browning recommended that a telephone be put in the jail office, and offered some suggestions showing the importance of telephone service to such an institution.

County Attorney O'Donnell presented an itemized statement of amount of delinquent taxes collected by him during past year. The total was \$460.55. Of this amount he received as a commission for collecting, \$233.27.

C. Bullock was allowed \$6 for road work.

J. R. Roberson was allowed \$183.55, expenses for purchase of bloodhounds. Squires Rice, Clark and Thompson were appointed a committee to take care of and train said hounds.

"More haste, less speed," and "hasten slowly," are proverbs born of experience that some things can't be hurried without loss and waste. That is specially true of eating. The railway lunch habit, "five minutes for refreshments," is a habit most disastrous to the health. You may hurry your eating. You can't hurry your digestion, and the neglect to allow proper time for this important function is the beginning of sorrow to many a busy man. When the tongue is foul, the head aches, when there are sour or bitter risings, undue fullness after eating, hot flushes, irritability, nervousness, irresolution, cold extremities, and other annoying symptoms, it is a habit most disastrous to the health.
